## Clubs for Term 5

A letter will come out this week for the clubs for Term 5, please ensure you send this back by Thursday 7<sup>th</sup>. Please note that Art Club will change to a Tuesday for the rest of this academic year.

### Offer Class Science

Otter class have enjoyed Science Week and there has been plenty of scientific thinking and hypotheses! The team work in the class has been excellent, with children collaborating with others in their teams to make predictions, carry out fair tests and record the results. All of the children in Otter Class are very much looking forward to sharing their project with everyone.

### Fox Class Science Week

During Science Week, Fox class worked in small groups to design an individual part of a spacesuit. The designs were amazing and it was lovely to see the children working together as a team to produce an impressive suit. We conducted experiments to test which materials were the most waterproof and which material would act as the best insulator. Fox class also produced some excellent research posters about spacesuits as a homework task and we also watched lots of clips from Chris Hadfield's mission to the I.S.S. in 2013 which provided a fascinating insight into life in space.
